Description

This activity aligns with 2210.611, Septic Permits. We do not anticipate this activity needs to be sustained by Information Services. A Brief History: A customer applied for a septic system permit on October 13, 2022. A site visit was made on October 19, 2022, by Health Department staff. A follow up visit was made with the client's engineer and Health Department staff on December 8, 2022. Follow-up correspondence continued until June of 2023, when it was determined the proposed septic system did not meet the minimum requirements of the Allegan County Water and Sewage Regulations. A formal denial letter was sent on June 6, 2023. On August 29, 2023, the customer requested an appeal of the decision, by Environmental Health, to deny the site for an on-site sewage disposal system based on the interpretation of the Allegan County Water and Sewage Regulations. According to the regulations, Section 701.00 and 702.00 the appeals board is comprised of 3 individuals appointed by the Board of Commissioners. Sent in separate document. According to the regulations this meeting needs to be scheduled as soon as possible but not more than 60 days of when the request for an appeal was made, which was August 29, 2023. Environmental Health is respectfully requesting the proposed Board of Appeals be approved at the September 28, 2023 Board of Commissioners Meeting.
